ABSTRACT

This fact book on Milwaukee Area Technical College (MATC) provides data tables, charts, and graphs on campus size, class size, college revenue, faculty and staff characteristics, full-time equivalent (FTE) enrollments, student background and characteristics, districtwide enrollments, campus enrollments, the district population, MATC and state vocational enrollments, and results of a 1990 survey of MATC students. Highlighted findings include the following: (1) throughout the 1980's MATC enrollments were directly proportional to the local unemployment rate; (2) from academic year 1980-81 to 1990-91, total minority enrollment increased by 45.8%, with Hispanics more than doubling their enrollment, Asians increasing by 96%, Black enrollment increasing by 30.4%, and American Indian enrollment increasing by 24.6%; (3) since 1981-82, there has been a gradual increase in the median age of students, while the first semester ratio of full-time day students to total students has decreased sharply; (4) evening first semester enrollments have decreased over the last thirteen years with declines at almost all campuses; (5) associate degree FTE has declined since 1982-83 though it is still 11% higher than it was in 1976-77; (6) College Parallel has increased by 61% since 1981-82 and vocational adult education has increased by 185% since 1976-77; (7) total FTE increased by 5.8% between 1988-89 and 1989-90; (8) business, liberal arts, and sciences have made up 60% of total FTE's since 1981-82; (9) in 1989-90, the majority (52.4%) of MATC employees were female; and (10) minority employment at MATC has increased from 15.3% in 1984 to 22.8% in 1990. EXECUTIVE SUMMARY

MATC FTE enrollment has been satisfactorily projected in the 1980s by utilizing the unemployment rate for the Milwaukee area. It has been found that MATC enrollments have been directly proportional to the unemployment rate. As unemployment increases, enrollment increases and vice versa. Enrollment peaked in the recession years of 1982 and 1983 at MATC and throughout the Technical College system. Enrollment has also increased in the last two years because of special funded programs in basic skills and the adult high school.

Enrollment of Minorities 1980-81 to 1990-91

Percent of total minority enrollment has increased from 15.6% (6,361) to 23.7% (9,276).

Hispanics have more than doubled their enrollment--706 to 1,571 (+122.5%).

Asians have increased by 96.0% from 525 to 1,029.

Black enrollment has increased by 30.4% from 4,886 to 6,372.

American Indians have increased 24.6% from 244 to 304.

Total minority enrollment increased 45.8% from 6,361 to 9,276.

Median Age of MATC Students

Since 1981-82 there has been a gradual increase in the median age of MATC students. The increasing number of older students has offset the declining numbers of high school graduates and population 18 to 24.

Full-Time and Part-Time Students

The first semester ratio of full-time day students to total students has decreased sharply. The ratio of 7,669 FT students to 16,031 total students was .478 in 1983-84. The ratio of 4,060 FT students to 17,950 total students was .226 in 1990-91. The number of full-time students taking 12 or more credits is declining.

Semester 1 Headcount Enrollment - 1976-77 to 1990-91

For comparison purposes, first semester fall enrollments as of the fifth week of day school are utilized. The 1976-77 year is used because of the opening of the South and North Campuses in 1976.

Day first semester headcounts have increased over the last thirteen years.

Evening first semester enrollments have decreased over the last thirteen years with declines at almost all locations.

Semester 1 Headcount Enrollment by Location - 1976-77 to 1990-91

South and West Campuses had their highest day headcount enrollments in their history in 1990; Milwaukee day headcount peaked in 1983; North in 1988.

South and North evening enrollments peaked in 1982 and 1983 respectively. Milwaukee evening enrollment was at its highest in the 1960s (12,925 in 1965). West Campus evening enrollments prior to 1982 cannot be compared.

Vocational enrollment has declined significantly since 1976-77 because of large decreases in diploma, certificate, apprentice, and JTPA enrollments. Adult High School has increased by more than 30%.

Vocational Adult enrollment has increased greatly since 1976-77 because of increases in General Adult enrollments particularly in basic skills. ABE has decreased in enrollment.

AN ALTERNATE METHOD FOR CALCULATING FTEs

The FTE information on the preceding pages is for State VTAE reporting purposes. This information is appropriate for comparing FTEs within the VTAE System.

When comparing MATC's FTEs with FTEs for other colleges and universities, it may be appropriate to use an alternate method of calculating FTEs. The Wisconsin Association of Collegiate Registrars and Admissions Officers computes FTEs by the following definitions:

FTE = number classified as full time plus one-third
of the number classified as part time.

Undergraduate Full-Time: Carrying 12 or more
semester hours.

If we use MATC's Semester 1, 1990-91 statistics to determine the alternate FTE calculation, we get the following:

Full-Time (Day or Evening)	4,435
Part-Time (Day)	12,561
Part-Time (Evening & Weekend)	<u>19,634</u>
Total Part-Time	32,195

$$\text{FTE} = 4,435 + \frac{32,195}{3} = 15,167 \text{ (Unofficial)}$$

**MATC STUDENT SURVEY
ABSTRACT**

1990 STUDENT SURVEY

A survey of 8,045 MATC students--including 2,672 Day, 4,952 Evening, 361 Weekend College, and 60 Unknown students--was conducted in April 1990. A random sample of this size with a school population of about 33,000 at the time of the survey should provide data with a confidence level of 99%.

Two different survey instruments were used (Appendixes A and B). The Day questionnaire consisted of 20 information items and 35 evaluation items. The Evening Centers and Weekend College questionnaire consisted of 20 information items and 27 evaluation items that were also a part of the Day questionnaire. The original questionnaire was developed in 1972 and is reviewed and revised each year the survey is given. This is the twelfth Student Survey conducted since 1972.

Detailed data and analyses of information and evaluation items are included in the body of this report. Some highlights of the information and evaluation data results of the survey are as follows:

Demographic and Information Items

1. A majority of MATC students are women and their percentage of total enrollment has not changed significantly since 1980 (54%) to 1990 (55%).
2. The median age of students has been increasing. Since 1980, district median age Day and Evening has increased from 26.4 to 29.5.
3. The number of students with dependent children continues to be high: Day 36%, Evening 37%, Weekend College 43%, and Total 37%.
4. The number of students interested in child care services continues to be high. The following percentages of respondents (43% Day, 32% Evening, and 37% Weekend College) indicated an interest in child care services at or near MATC at a cost to cover expenses in 1990.
5. A significant percentage of MATC students, 2.8% of students enrolled, speak an Asian language at home.
6. In the 1990 survey, about 35% of Day and 18% of Evening students were minorities. A majority of the minority students are enrolled at the Milwaukee Campus where about 41% of Day and 32% of Evening students were minorities. The 5.2% of Hispanic students in the Day school is second only to Blacks who made up 28.7% of the Day School respondents. These percentages are consistent with actual enrollments and represent second semester enrollment as of April 1990.
7. A majority of MATC students do not receive educational financial aid. Of the respondents, 37% of Day, 12% of Evening, and 12% of Weekend College students were receiving financial aid. Only students enrolled in full-time Associate Degree or Vocational programs are eligible for financial aid when they are taking a minimum number of credits.

8. A relatively high percentage of students consider themselves to be physically handicapped: Day 6%, Evening 4%, and Weekend College 6%. This is similar to percentages in 1988.
9. A majority of women and men (about 91%) and minorities (about 81%) indicated that they have not experienced discrimination at MATC.
10. Most MATC students are not seeking a degree or diploma as their primary reason for attendance when they initially enroll. A degree or diploma may be the primary reason for attendance of 35% to 40% of all students.
11. Because of a 40% decrease in evening students at evening centers and large decreases in avocational courses, the percentage of students attending for personal enrichment has decreased from 24% in 1980 to 14% in 1990.
